

TOPGUN | Entrepreneurship Acceleration

Be a TOP GUN sponsor and invest in the development of tomorrow's business leaders in Maine!

Two years ago the Maine Center for Enterprise Development launched Top Gun, a unique program for Maine that matches early stage, innovation-based entrepreneurs with targeted mentoring from industry professionals, a strong business-building curriculum, and exposure to the venture capital community.

The program model was so successful that Top Gun graduates have received \$1.1 million dollars in grant funding from the Maine Technology Institute (MTI) alone! Additionally, since 2009, Top Gun graduate companies have created over 95 Maine jobs!

This year, in collaboration with the University of Maine's Target Technology Center and Foster Center for Student Innovation, and with funding from MTI, the program has expanded statewide to reach even more Maine based companies.

We are offering this program at a cost of \$500 per participant, but we need your support to ensure this programs' continued success. We are asking for a contribution of at least \$50 from all interested members of the business community and hope that we can count on your support.

	Local Supporter \$50	Local Sponsor \$500	Statewide Sponsor \$1,000	Reception Sponsor \$2,500
